

BRNKL Mate

Summary

The BRNKL Mate expands the capabilities of BRNKL to support wireless security sensors, a second camera, and global satellite connectivity.

Who's it for?

The BRNKL Mate is for boaters who want to:

1. Add more security sensors to their boat. Since the BRNKL Mate supports wireless sensors it makes adding these sensors very easy.
2. Add a second camera to take photos from another vantage point.
3. Have true global connectivity with satellite communications.
